Keep On Roaming with Telecom Trading Your Reliable SIM Card Provider.

Three UK's voice and data roaming SIM cards are ready for use in 43 global destinations.

A range of pre-paid voice and data roaming SIM that are designed to meet the increasing demands of the modern 'always on' lifestyle. The Trio SIM ensures device compatibility, whether for use in a handset, tablet, dongle or portable Wi-Fi device. Your customers will always be connected.

- Cost effective and flexible, the 1 GB, 3GB and 12GB capacity roaming data cards are valid for 30 days, 3 months and 12 months respectively, from the date of activation.
- Unlimited product self-life means no spoilage prior to activation.

In the Smartphone Age, It's Changing the Mode of Payment

Smartphones have replaced lots of other accessories -- cameras, flashlights, calculators. But many people are still reluctant to swap the wallets in their pockets for their digital counterparts.

A key reason consumers are hesitant to adopt mobile payments like Apple Pay and Android Pay, surveys say, is fear over security: High-profile retailer data breaches have made buyers wary of sharing credit card information. But while there's cause not to rely 100 percent on your mobile wallet just yet -- lack of widespread acceptance by merchants, for one thing -- security concerns shouldn't be holding shoppers back, experts say.

"I think some people get nervous about this idea of 'This thing is sending telepathic waves to that machine to say that I'm paying,'" says Mark Ranta, head of digital banking solutions at ACI Worldwide, a payment systems company.

But your mobile wallet is arguably the safest way to pay, and it offers a few benefits to boot. Here's why this payment method is worth considering.

It's Safer Than You Think

Contactless payment services can offer more security than cash or traditional card usage.

"You never have to take out your credit card or debit card, so there's a lot less chance of someone seeing it," says Jason Chaikin, president of biometrics security company Vkansee. "For every transaction, (mobile wallets) create a random, one-time number -- a transaction token -- and even if someone was able to know that number, it's not valid later."

Samsung Pay, Android Pay and Apple Pay each use this process, called tokenization. Although you load your card into the payment app, the actual card number is not shared with the merchant when you pay. Rather, a temporary code is issued in its place, similar to the way EMV chip cards work. EMV credit and debit cards have chips that create a unique code, or cryptogram, when inserted into a merchant's payment terminal. However, the card is in view while the terminal reads the chip.

Mobile payments provide security measures on top of

existing bank protections that chip cards can't match. Full card numbers are not displayed in mobile wallet apps, and users are able to authorize payments with their fingerprints, which can protect your card information in the event your phone is stolen.

It's Convenient -- When Available

Services like Apple Pay let users add multiple cards to their phones or smartwatches, theoretically giving them the option to leave overstuffed wallets and purses at home.

But consumers don't entirely trust mobile wallets partly because availability is limited, says Ranta. Not all cards and loyalty programs are compatible with the payment services, and some stores are not equipped to take mobile payments. Establishments such as bars and restaurants may accept only cash or plastic. Apple Pay has the highest retailer acceptance rate among the mobile payment services, at 36 percent, according to survey data from the retail consulting firm Boston Retail Partners.

"We're still very much in the early stages of this," Ranta says. "At the end of the day, you're still kind of stuck in this merchant acceptance problem of a two-sided equation. It's still that awkward, 'Do you accept it?' and if (not), then you've got to find an alternative way to pay or just walk out of the store."

But when shoppers can use their mobile wallets, it can mean saving precious time at the register. A common complaint among dissatisfied chip-card users is the slow transaction process, as shoppers wait for the EMV terminal to complete the transaction. Mobile payments can be a quicker alternative. Users open a payment app and hold their device over a terminal; a fingerprint or PIN verifies the purchase.

Shopping online can be faster, too. For example, Apple Pay and Android Pay are accepted on certain websites and in apps like Airbnb, allowing shoppers to make purchases without entering card information -- or keeping card numbers on file, which may assuage data-breach fears.

And like some bank apps, a mobile wallet saves your recent transaction history for reference, with the added benefit of allowing you to see all activity in one place even if your cards are from various banks.

You Won't Miss Out on Rewards

Mobile credit card payments function just like regular credit cards. As long as your card is compatible with the service, you'll continue to earn your usual rewards, like travel points or cash back.

Mobile users can add certain retailer loyalty cards to Android Pay and Apple Pay wallets to seamlessly earn store-specific points. Samsung Pay accepts most membership cards.

Samsung also has its own loyalty program, Samsung Rewards. In addition to credit card rewards, members earn points for Samsung Pay purchases; the points are redeemable for rewards like gift cards and fitness trackers.

Mobile payment still has far to go before shoppers begin leaving their old wallets at home. As technology advances, Chaikin says, innovations and improvements in security will likely make the process more comfortable and accessible for consumers and retailers alike. "Our mobile phone revolution is really just at the tipping point."

Leading-edge Solutions & Business Tools to Enhance Your Competitiveness

As one of the signature events of the International IT Fest 2017, the HKTDC International ICT Expo provides the ideal platform for SMEs of all industries to keep abreast of the latest products and ICT solutions with the objective to upgrade their systems and stay competitive. Close to **600** exhibitors and over **30,000** business visitors participated in 2016. Don't miss this annual ICT event in 2017!

Expo Highlights

Startup Zone: Connect with the Future Today

The **Startup zone (@Hall 3)** highlights the brightest tech startups from around the globe, allowing buyers to explore innovative breakthroughs in smart tech devices and next-gen ICT solutions. Discover new ideas, hear inventive pitches, take part in forums and network with the startups as you leverage new ideas to stay one step ahead.

Find Your Career on "Public Day"

Opening to tertiary students on 16 April, the Expo provides fruitful information on ICT courses and job opportunities.

Theme of the Day

The Expo's activities are organised by hot topics to feature key issues:

- 13 April: Startups
- 14 April: e-Commerce & FinTech
- 15 April: Disruptive Technology
- 16 April: Career Development

Specialised Zones accommodate All-round Business Needs

- Digital Infrastructure
- Digital Marketing
- e-Commerce
- Enterprise Solutions
- Home-grown Innovations
- Retail Technologies
- Smart Devices & Accessories
- Trade Related Services
- Group Pavilions

SME IT Clinic

Free consultation from IT experts to increase sales, reduce cost, enhance efficiency and meet various IT needs of your company.

Find Inspiration at the ICT Awards Pavilion

Winning entries of the Hong Kong ICT Awards 2017 are presented where outstanding ICT inventions and applications of local ICT talents are recognised. Learn more: <http://www.hkictawards.hk>

Asia's Largest Spring Electronics Fair to Open in April Concurrent International ICT Expo to showcase innovations

24 January 2017 – Organised by the Hong Kong Trade Development Council (HKTDC), the Hong Kong Electronics Fair (Spring Edition) and the International ICT Expo, will be staged concurrently at the Hong Kong Convention and Exhibition Centre from **13 to 16 April 2017**.

Entering into their 14th editions, the two fairs will provide an international platform for over 3,400 exhibitors to showcase their latest electronic products and cutting-edge ICT solutions to global buyers. In 2016, the twin annual fairs welcomed nearly 93,000 buyers from 145 countries and regions.

Hong Kong's electronics industry is the largest merchandise export earner of the territory, reaching US\$ 271.6 billion in the first 11 months in 2016, up 1.3 per cent year on year. As the important electronics trading hub in Asia Pacific, Hong Kong is the ideal location to stage influential trade fairs for industry players to preview the upcoming trends and exchange market intelligence.

Benjamin Chau, Deputy Executive Director, HKTDC, said, "HKTDC organises the Spring and Autumn Electronics Fairs in April and October respectively each year to align with the sourcing periods of global buyers. The Hong Kong Electronics Fair (Spring Edition) is the largest spring electronics fair in Asia. Together with the concurrent International ICT Expo, this is an effective platform for exhibitors to present their new products and solutions to buyers which creates abundant trading opportunities for crossover business activities."

Inaugural Startup Zone

Startups are a growing force in driving economic diversity. A new **Startup** zone to be located at Hall 3F-G Concourse will be launched at the two fairs, which will gather tech startups from around the globe to present their innovative electronic products and ICT solutions, allowing investors to explore investment and partnership opportunities.

A series of themed events will be arranged to provide an excellent platform for startups to present their ideas. These include pitching session where startups can pitch solutions or product ideas to potential investors on the spot, "Startup, Smart Launch" where newly developed technology and products can be introduced to buyers, as well as Startup Mentoring sessions where successful entrepreneurs will share their experience with startups.

Debut Virtual Reality Zone at Spring Electronics Fair

A new **Tech Hall** will be introduced at Hall 5F-G of the Spring Electronics Fair this year, clustering four thematic zones including the inaugural Virtual Reality zone, as well as Connected Home, Robotics & Unmanned Tech and Wearable Electronics. This assemblage will help buyers source high-tech electronic products with ease.

During the Electronics Fair (Autumn Edition) held in October last year, the HKTDC commissioned an independent survey, during which more than 1,000 exhibitors and buyers were interviewed about the outlook for the electronics market and new product trends. The survey found that over 70 per cent of the respondents believed that the market potential and demand of Virtual Reality (VR) and Augmented Reality (AR) devices or applications would be 'promising' or 'very promising' over the next two years. To satisfy the market demand, a new **Virtual Reality** zone will be launched at the Spring Electronics Fair to feature a range of VR headsets and related technology as well as VR video cameras.

The **Connected Home** zone will return to introduce the application of Internet-of-Things (IoT) for home automation such as smart home system controlled by mobile apps. The **Robotics & Unmanned Tech** zone will feature aerial camera, electric scooters, industrial and household robots amongst others. Another popular zone returning is **Wearable Electronics**, which will showcase a wide range of related products such as smart watches and smart wristbands with healthcare and sports monitoring functions.

The fair's **Hall of Fame** will return with over 570 international leading brands, including Bigben, Desay, GP, HKC, Hubble, Intel, Motorola and Polaroid. Other themed zones include Audio Visual Products, Electronic Accessories, In-Vehicle Electronics & Navigation Systems, Personal Electronics and many more.

Global ICT Solutions for Enhancing Competitiveness

Running concurrently with the Spring Electronics Fair, the International ICT Expo is one of the signature events of the "International IT Fest 2017". It is the ideal platform for different industries to keep abreast of the latest products and solutions in information, communication and technologies (ICT) with the objective to enhance business efficiency and stay competitive.

The Expo is categorised under various themed zones for business visitors to look for the solutions suitable for their businesses. e-Commerce zone will showcase cyber security, **e-commerce** platform, e-payment, logistics, O2O business solutions and IT integration. **Retail Technologies** zone will feature business improvement solutions which include retail and payment technologies. **Enterprise Solutions** zone will present software solutions for the corporate world enabling business to upgrade internal processes and everyday operations.

Home-grown Innovation zone will feature the latest technologies developed by some local companies and institutions. Other themed zones include Digital Infrastructure, Digital Marketing and Smart Devices & Accessories and more.

There will be dedicated theme for the seminars and sharing sessions held on each day of the Expo, featuring hot industry issues which include Startups, e-Commerce & FinTech, Disruptive Technology and Career Development. Besides, for the first time, the Expo will open to tertiary students on the last day (16 April), providing fruitful information on ICT career development and job opportunities.

Besides, the popular **SME IT Clinic** will return to offer complimentary professional consultation services on ICT systems and solutions to help SMEs enhance business efficiency.

hktdc.com Small Orders and Value-added Events

The hktdc.com Small Orders zone will continue to serve as a convenient platform for buyers to source in smaller lots, featuring products available in the minimum order quantities between five and 1,000 pieces. It is also online at <http://smallorders.hktdc.com> for global buyers to source products and complete transactions online, featuring over 120,000 products from more than 11,000 suppliers.

A series of seminars, themed under the **2017 Tech Trends Symposium** covering industry hot topics such as Wearables, Virtual Reality (VR), Augmented Reality (AR), Mixed Reality (MR), Smart Home and Robotics, will be held at the fairs. Besides, there will be Product Demo & Launch Pads, networking events and business matching services for exhibitors, buyers and visitors to share industry trends and market knowledge, as well as expand their business networks.

LG unveils NEW G6 with a large fullvision display tailored to fit in one-hand

LG Electronics (LG) unveiled the G6 smartphone, the newest smartphone that features a bold new display format complimented by a cinematic viewing experience, exceptional screen to body ratio, wide angle camera and more. Designed in response to consumer feedback and user opinions, the G6 is a back-to-basics approach to premium smartphones, with a focus on the features consumers want, most notably a big screen that actually fits in one hand.

The Big Screen That Actually Fits in Your Hand

The LG G6 comes with a 5.7-inch QHD+ (2,880 x 1,440 resolution) FullVision display, and for the first time ever in a smartphone, an 18:9 screen aspect ratio. Compared to conventional 16:9 aspect ratio displays, the 18:9 format offers more viewing space and a more immersive experience when streaming videos and playing games.

More to See, Less to Hold

Even with the large screen featured on the G6, the smartphone is easy to hold. And unlike other phones with a similar screen size, the LG G6 fits comfortably in one hand, giving you a big screen experience without the inconvenience of a big phone. In fact, ergonomics research teams led by Dr. Andris Freivalds at Pennsylvania State University and Dr. Ji Yong-gu at Yonsei University tested the LG G6 for stability when holding the phone, comfort in various postures and actions, as well as muscle fatigue when using the smartphone for long periods. The LG G6 received the highest marks in all test categories.

Attractive and Mostly Screen

Sculpted from aluminum and glass, which comes in black, platinum and white, the LG G6 features a minimalist design that's sleek all-round and perfectly smooth to the touch. The metal frame that wraps around the perimeter of the phone imparts solidity in style with a soft matte finish and the back is perfectly flat, with no camera bump to avoid or protect. Complimented by narrow bezels, the upper bezel was minimized by rearranging the camera, sensor and speaker in a row on the front upper side. The rounded corners of both the body and display not only unify the design but also dispersing the impact if the phone is dropped.

Transform Your Mobile Viewing Experience with Dolby Vision

The LG G6 is the first smartphone to feature Dolby Vision technology. But not only does it support Dolby Vision, the G6 also supports HDR 10, both of which are standards for High Dynamic

Range (HDR), the picture quality technology which allows for a wider range of color and luminosity, wherein both the darkest and the brightest areas are more vivid, revealing greater detail for a truly immersive viewing experience.

With smartphone screen sizes getting bigger and the speed of the Internet becoming faster, LG decided to support two HDR standards for viewers to have access to as much content as possible. With HDR content from Netflix and Amazon on the rise, watch popular shows in stunning HDR quality on the LG G6. Amazon will also increasingly create 18:9 content for a cinematic viewing experience on the 18:9 QHD+ display.

Get More In, Leave Nothing Out

With the LG G6, you don't need to ask people in the picture to reposition, cram together or find another place to stand in order to get everything in, simply choose between standard and wide angle settings. And with dual 13MP rear cameras, including a 125-degree lens on the wide angle, the LG G6 captures panoramic shots that regular phones cameras can't. The G6 delivers an outstanding and unique camera experience by creating seamless transitions when zooming in and out between the wide-angle and standard camera lenses even during 4K video capture. The G6 also comes with an expanded 100-degree field of view with its 5MP front camera, which means users can take selfies or wefies without the need for a selfie stick. Plus, the wide angle camera reduces edge distortion, which makes for more natural images.

Square Up and Share

And to view selfies, wefies, wide angle pictures and even the ones in the new Square Camera Mode, recent LG G6 photos appear in one window in film mode which means users don't need to move to their gallery to review them. The G6 provides a Square Camera function which divides the 18:9 ratio display into two identical squares. The LG G6 can also take perfectly square photos in 1:1 ratio, ideal for Instagram, Snapchat and other social media apps. Users can also choose other ratios, such as 4:3, 16:9 and 18:9. Users can also take pictures in 1:1 ratio in one window, while checking, editing and uploading pictures in another window immediately after shooting. What's more, users can create GIFs by combining between 2 and 100 photos from the gallery.

Built for the Unexpected

The LG G6 can go just about anywhere without worry thanks to its IP68 water and dust resistance that makes it safe to be immersed in up to 1.5 meters of water for as long as 30 minutes. And you can worry less about accidental drops and other rough environments during everyday use because the LG G6 has been designed and built to be dependable even when the going gets rough.

And the LG G6 not only meets international testing standards but also endures further tests for high temperatures and nail penetration and uses a proprietary technology that dissipates heat via an internal heat pipe, the first in an LG smartphone. And to further disperse heat inside the unit, LG engineers positioned the components most prone to overheating as far from each other as possible.

LG debuts best mid-range smartphone LG K10 (2017) with best-in-class technologies

LG Electronics Hong Kong (LG) introduces a new member LG K10 (2017) to its K Series. Designed with the diverse needs of consumers in mind, the new mid-range device incorporates a wealth of popular flagship features, delivering powerful performance and stylish design at an affordable price. LG K10 (2017) sports a 120-degree wide-angle camera rarely found in mid-range handsets. Users can now enjoy hassle-free photo-taking experience anywhere, anytime with the versatility of its removable battery design.

120-Degree Wide-Angle Front Shooter Best for Selfies

Designed with best-in-class features found in the LG flagship G Series, the LG K10 (2017) tops LG's new budget range with powerful mobile experience. Amongst its features, the 5MP front camera with a 120-degree wide-angle lens, and the 13MP rear camera of K10 (2017) are most enticing. Ideal

for selfie lovers, the wide-angle lens makes it easier to capture those social gatherings. What's more – the popular removable battery design offers users a truly on-the-go experience. The K10 (2017) also supports an external MicroSD memory card up to 2TB, for stellar processing power and bigger storage for multimedia files.

Sturdy but Slim Design That Feels Like a Flagship

The handset embodies LG's continuous pursuit of excellent design and craftsmanship. Weighing at a mere 142g, the LG K10 (2017) is equipped with a 5.3-inch large screen with metallic u-frames running along the edges, commonly found only in flagship products. Not only does the K10 (2017) feel good in hand, its 2.5D Arc Glass design also makes it a real looker among other mid-rangers.

The K10 (2017) features a 1.5GHz octa-core processor, 2GB RAM, 16GB ROM, and runs on Android 7.0 Nougat, delivering stable and smooth mobile experience.

Price and Launch Date

LG's new K10 (2017) smartphone comes in Black and Gold, and is available from 10th of March at authorized retailers at the suggested retail price of HK\$1,698.

Google Opens 'Shortcuts' to Information, Tools on Phones

Google wants to make it easier for you to find answers and recommendations on smartphones without having to think about what to ask its search engine.

Its new feature, called "shortcuts," will appear as a row of icons below the Google search box. Where now you'd have to ponder and then speak or type a request, the shortcuts will let you tap the icons to get the latest weather, movie showtimes, sports scores, restaurant recommendations and other common requests.

The shortcuts will begin appearing Tuesday in updates to Google's app for iPhones, Android phones and its mobile website. The Android app will also include various tools such as a currency converter, a language translator and an ATM locator, which you can also summon with a tap. Those tools may eventually make it to the iPhone as well, although Google says it doesn't know when.

Your Backup Brain

These shortcuts are the latest step in Google's quest to turn its search engine into a secondary brain that anticipates people's needs and desires. The search engine gleans these insights by analyzing your past requests and, when you allow it, tracking your location, a practice that periodically raises privacy concerns about Google's power to

create digital profiles of its users.

Based on the knowledge that Google already has accumulated, its shortcuts feature may already list your favorite sports teams or recommend nearby restaurants serving cuisines you prefer.

Shortcuts also show how Google's search engine has been adapting to its audience, now that smartphones have become the primary way millions of people stay connected to the internet.

Going Mobile

Since more than half of requests for Google's search engine now come from smartphones, the Mountain View, California, company has adapted its services to smaller screens, touch keyboards and apps instead of websites.

Early in that process, Google tweaked its search engine to answer many requests with factual summaries at the top of its results page, a change from simply displaying a list of links to other websites. Voice-recognition technology also allows you to speak your request into a phone instead of typing it.

The transition is going well so far. Google's revenue rose 20 percent last year to \$89 billion, propelled by digital ads served up on its search engine, YouTube and Gmail. Although shortcuts won't initially show ads after you tap them, Google typically sells marketing space if a feature or service becomes popular.

➤ **Xiaomi Joins GSMA to Contribute to Industry Standardization**

Leading technology company Xiaomi announced today that it has joined as an associate member of the London-based global mobile operators' trade association, the GSMA, to help driving the adoption and interoperability of new technologies.

Xiaomi was founded in 2010 by serial entrepreneur Lei Jun based on the vision "innovation for everyone", with the belief that high-quality products built with cutting-edge technology should be made accessible to everyone. Its product range currently includes Mi and Redmi smartphones, Mi TVs and set-top boxes, Mi routers, and Mi Ecosystem products including smart home products, wearables and other accessories.

The GSMA represents the interests of mobile operators worldwide, uniting nearly 800 operators with almost 300 companies in the broader mobile ecosystem, including handset and device makers, software companies, equipment providers and internet companies, as well as organisations in adjacent industry sectors. The GSMA also produces industry-leading events such as Mobile World Congress, Mobile World Congress Shanghai, Mobile World Congress Americas and the Mobile 360 Series of conferences.

With such a wide range of products, Xiaomi

has business units covering devices, virtual SIM, eSIM, and Internet of Things among others. As an associate member of the GSMA, Xiaomi will play an important role in contributing its expertise across these segments for industry standardization.

➤ **Apple Updates iPad Line and Launches Red iPhone 7**

Apple has updated its iPad line, dropping the "Air" branding as it boosts the specs on its mid-tier product. The new hardware launches alongside another color for the iPhone 7 and 7 Plus, and an unusually timed announcement of a new video app, Clips.

Starting at [\$329] for a 32GB model with wifi only, and rising to [\$459] for a 128GB model with 4G, the new iPad [pictured above], an update to the iPad Air 2, solidifies Apple's intentions to split the line into three: an expensive iPad Pro, available in two sizes, for those needing a laptop replacement; a cheap iPad mini for those needing a small portable tablet; and the iPad sitting in between the two.

The new iPad sees its innards bumped from an A8X chip to the A9, previously used in the iPhones 6S and SE. The more-powerful A9X chip, introduced for the two sizes of iPad Pro, remains exclusive to that product line. Following the lead

www.mobilesources.net/cds

of the Mac lineup, Apple also dropped the "Air" branding from the series.

Other than the speed boost, most features in the iPad remain untouched: the device has the same camera specs as its predecessor, the same screen specs and the same rated battery life. But the differences between the iPad Pro and iPad are more stark, particularly in form factor: the retention of the eight megapixel camera means the new iPad doesn't have the unsightly camera nubbin that graces its more expensive sibling. Perhaps not coincidentally, Apple's tagline for the product is "Flat-out fun."

Alongside the iPad, Apple also announced a new color, red, for its iPhone 7 devices. Some of

the proceeds from sales of the device, alongside other red products sold by Apple, will go to supporting the Product Red initiative to fight HIV and Aids. The company has also doubled the storage on its cheaper, smaller iPhone SE: the phone will now ship in 32GB and 128GB configurations, for the same price as before (starting at £379).

Unusually, Apple paired the hardware launch with the announcement of a new app, Clips. The company hasn't given a release date for the app, which allows users to "make and share fun videos with text, effects, graphics and more," but it will debut alongside iOS 10.3, the next major update to its operating system for iPhones, iPods and iPads.

Comprehensive Advertising Package

The Most Effective Media for Promotion and Brand Building

CIC Media as a pioneer trade media of the telecom industry, dedicates in serving as the bridge between suppliers and buyers. "Telecom Worldwide" is the gateway for the international telecom market. It provides insights on the market trend and features the latest telecom products (mainly mobile phones, accessories, spare parts and repair equipments) to the 100,000 buyers in Europe, North & South America Asia, Middle East and other regions.

Finding Business Partners

• Brand Building

With great exposure in many world known trade fairs, mobile forum, seminars and mobile phone trading markets, the publication offers a direct way to promote your products to the oversea buyers. Many reputed Chinese enterprises such as Xiao Mi, TCL, G'Five, LeTV, has taken "Telecom Worldwide" as one of the stepping stones to enter the international markets.

• Sourcing Channel

With the publication and its website www.MobileSources.net, Buyers keep abreast of the right sources and first hand information on brand new phones, operator stocks, used refurbished phones, original accessories and spare parts which facilitate the flow of trade.

• Boost OEM order

Apart from the advantages on building your brands and increasing brand awareness, CIC also helps in boosting your revenues by promoting manufacturers' OEM services to the oversea buyers by various means.

MobileSources.net – borderless 24/7 online promotion

For over 23 years experience in publication, CIC has proactively launched a sourcing website to enhance the interactivity and timely information to the buyers.

Hot Product: featuring hot items from time to time.

Mobile phone database: comprehensive specifications and photos for easy reference.

Phone Mart: post and view instantly your trade leads on buy/ sell/ stock offers.

E-magazine: Monthly updated version of "Telecom Worldwide".

Auto-Matching: CIC auto matching bridges buyers with the suppliers by the products they are looking for.

Buyers' Information: buyers' contacts from worldwide exhibition, mobile phone trading market and online enquiry are viewable online.

FOR ADVERTISING, PLEASE CONTACT:

Interchangeable Lens System

Olympus OM-D EM1 Mark II

- ◆ Effective pixels: 20.0 Million CMOS
- ◆ Mirrorless Interchangeable Lens Camera
- ◆ Focal Length Multiplier: 2.0
- ◆ Shutter range: 60-1/8000 sec
- ◆ 5-axis image stabilization
- ◆ LCD: 3.0" 1,037,000 dots
- ◆ Battery: Lithium-Ion BLH-1
- ◆ Storage: SD/SDHC/SDXC Card x 2
- ◆ Size: 134 x 91 x 67 mm, 574g

Canon EOS M5

- ◆ Effective pixels: 24.0 Million CMOS
- ◆ Mirrorless Interchangeable Lens Camera
- ◆ Focal Length Multiplier: 1.6
- ◆ Shutter range: 30-1/4000 secc
- ◆ Built-in Wi-Fi and NFC
- ◆ LCD: 3.2" 1,620,000 dots
- ◆ Battery: Lithium-Ion LP-E17
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 116 x 89 x 61 mm, 427g

Canon EOS 1300D

- ◆ Effective pixels: 18.0 Million CMOS
- ◆ Built-in Wi-Fi and NFC
- ◆ Focal Length Multiplier: 1.6
- ◆ Shutter range: 30-1/4000 sec
- ◆ Movie Clips: 1920 x 1080 30fps
- ◆ LCD: 3.0" 920,000 dots
- ◆ Battery: Lithium-Ion LP-E10
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 129 x 101 x 78 mm, 485g

Nikon D5600

- ◆ Effective pixels: 24.0 Million CMOS
- ◆ 39-point AF system (9 cross type)
- ◆ Focal Length Multiplier: 1.5
- ◆ Shutter range: 30-1/4000 sec
- ◆ Built in Wi-Fi, NFC and Bluetooth
- ◆ LCD: 3.2" 1,040,000 dots
- ◆ Battery: Lithium-Ion EN-EL14a
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 124 x 97 x 70 mm, 465g

Nikon D3400

- ◆ Effective pixels: 24.0 Million CMOS
- ◆ SnapBridge by Bluetooth
- ◆ Focal Length Multiplier: 1.5
- ◆ Shutter range: 30-1/4000 sec
- ◆ Movie Clips: 1920 x 1080 60fps
- ◆ LCD: 3.0" 921,000 dots
- ◆ Battery: Lithium-Ion EN-EL14a
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 124 x 98 x 76 mm, 395g

Sony Alpha a99 II

- ◆ Effective pixels: 42.0 Million BSI-CMOS
- ◆ Single Len Translucent Mirror
- ◆ Focal Length Multiplier: 1.0
- ◆ Shutter range: 30-1/8000 sec
- ◆ 5-axis image stabilization
- ◆ LCD: 3.0" 1,228,000 dots
- ◆ Battery: Lithium-Ion NP-FM500H
- ◆ Storage: SD/SDHC/SDXC/MS Duo Card
- ◆ Size: 143 x 104 x 76 mm, 849g

Fujifilm X-T2

- ◆ Effective pixels: 24.0 Million CMOS
- ◆ Mirrorless Interchangeable Lens Camera
- ◆ Focal Length Multiplier: 1.5
- ◆ Shutter range: 30-1/8000 sec
- ◆ Built-in Wi-Fi
- ◆ LCD: 3.0" 1,040,000 dots
- ◆ Battery: Lithium-Ion NP-W126S
- ◆ Storage: SD/SDHC/SDXC Card x 2
- ◆ Size: 133 x 92 x 49mm, 507g

Fujifilm X Pro2

- ◆ Effective pixels: 24.0 Million CMOS
- ◆ Mirrorless Interchangeable Lens Camera
- ◆ Focal Length Multiplier: 1.5
- ◆ Shutter range: 30-1/8000 sec
- ◆ Built in Wi-Fi
- ◆ LCD: 3.0" 1,620,000 dots
- ◆ Battery: Lithium-Ion NP-W126
- ◆ Storage: SD/SDHC/SDXC x 2
- ◆ Size: 141 x 83 x 56 mm, 495g

Leica M (typ 262)

- ◆ Effective pixels: 24.0 Million CMOS
- ◆ Mirrorless Interchangeable Lens Camera
- ◆ Focal Length Multiplier: 1.0
- ◆ Shutter range: 60-1/4000 sec
- ◆ Rangefinder camera
- ◆ LCD: 3.0" 920,000 dots
- ◆ Battery: Lithium-Ion BP-SCL2
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 139 x 80 x 42 mm, 680g

Panasonic Lumix DMC-GF8

- ◆ Effective pixels: 16.0 million CMOS
- ◆ Mirrorless Interchangeable Lens Camera
- ◆ Focal Length Multiplier: 2.0
- ◆ Shutter range: 60-1/16000 sec
- ◆ Built-in Wi-Fi
- ◆ LCD: 3.0" 1,040,000 dots
- ◆ Battery: Lithium-Ion Rechargeable
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 107x65x33 mm, 266g

Panasonic Lumix DMC-G85

- ◆ Effective pixels: 16.0 Million CMOS
- ◆ Mirrorless Interchangeable Lens Camera
- ◆ Focal Length Multiplier: 2.0
- ◆ Shutter range: 60-1/4000 sec
- ◆ Built-in Wi-Fi
- ◆ LCD: 3.0" 1,040,000 dots
- ◆ Battery: Lithium-Ion Rechargeable
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 128 x 89 x 74 mm, 505g

Pentax K-70

- ◆ Effective pixels: 24.0 Million CMOS
- ◆ Built-in Wi-Fi
- ◆ Focal Length Multiplier: 1.5
- ◆ Shutter range: 30-1/6000 sec
- ◆ Movie Clips: 1920 x 1080 30fps
- ◆ LCD: 3.0" 921,000 dots
- ◆ Battery: Lithium-Ion DL-1109
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 126 x 93 x 74 mm, 688g

Pentax K-1

- ◆ Effective pixels: 36.0 million CMOS
- ◆ Built-in Wi-Fi and NFC
- ◆ Focal Length Multiplier: 1.0
- ◆ Shutter range: 30-1/8000 sec
- ◆ Movie Clips: 1920 x 1080 30fps
- ◆ LCD: 3.2" 1,037,000 dots
- ◆ Battery: Lithium-Ion D-LI90
- ◆ Storage: SD/SDHC/SDXC Card x2
- ◆ Size: 137 x 110 x 86 mm, 1010g

Fujifilm FinePix XP120

- ◆ Effective pixels: 16.0 Million BSI-CMOS
- ◆ Waterproof, Shockproof, Freezeproof
- ◆ Zoom range: 28-140 mm eqv
- ◆ Shutter range: 4-1/2000 sec
- ◆ Built-in Wi-Fi
- ◆ LCD: 3.0" 920,000 dots
- ◆ Battery: Lithium-Ion NP-45S
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 110 x 71 x 28 mm, 203g

Lecia X - U

- ◆ Effective pixels: 16.0 million APS-C CMOS
- ◆ Waterproof at depths upto 15M
- ◆ Zoom range: 35 mm eqv.
- ◆ Shutter range: 30-1/2000 sec.
- ◆ Aperture range: F1.7-F16.0
- ◆ LCD: 3.0" 920,000 dots
- ◆ Battery: Lithium-Ion BP-DC8
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 140x79x88mm, 635g

Fujifilm X70

- ◆ Effective pixels: 16.0 Million BSI-CMOS
- ◆ Built-in Wi-Fi
- ◆ Zoom range: 28 mm eqv.
- ◆ Shutter range: 30-1/4000 sec
- ◆ Aperture range: Maximum F2.8
- ◆ LCD: 3.0" 1,040,000 dots
- ◆ Battery: Lithium-Ion NP-95
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 113 x 64 x 44 mm, 340g

Nikon Coolpix W100

- ◆ Effective pixels: 13.0 Million CMOS
- ◆ Waterproof and Shockproof
- ◆ Zoom range: 30-90 mm eqv
- ◆ Shutter range: 1-1/2000 sec
- ◆ Built-in Wi-Fi
- ◆ LCD: 2.7" 230,000 dots
- ◆ Battery: Lithium-Ion EN-EL19
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 110 x 67 x 38 mm, 177g

Nikon DL 18-50

- ◆ Effective pixels: 21.0 million 1" BSI-CMOS
- ◆ Built-in Wi-Fi and NFC
- ◆ Zoom range: 18-50 mm eqv
- ◆ Shutter range: 30-1/16000 sec
- ◆ Aperture range: F1.8-F2.8
- ◆ LCD: 3.0" 1,037,000 dots
- ◆ Battery: Lithium-Ion EN-EL24
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 106x63x58 mm, 365g

Canon Powershot G7X mark II

- ◆ Effective pixels: 2.0 Million 1" BSI-CMOS
- ◆ Built-in Wi-Fi and NFC
- ◆ Zoom range: 24-100 mm eqv
- ◆ Shutter range: 15-1/2000 sec
- ◆ Aperture range: F1.8-2.8
- ◆ LCD: 3.0" 1,040,000 dots
- ◆ Battery: Lithium-Ion NB-13L
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 106 x 61 x 42 mm, 319g

Canon PowerShot G9X mark II

- ◆ Effective pixels: 20.0 Million BSI-CMOS
- ◆ Built-in Wi-Fi and NFC
- ◆ Zoom range: 28-84 mm eqv
- ◆ Shutter range: 30-1/2000 sec
- ◆ Aperture range: F2.0-4.9
- ◆ LCD: 3.0" 1,040,000 dots
- ◆ Battery: Lithium-Ion NB-13L
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 98 x 58 x 31 mm, 206g

Sony Cyber Shot DSC RX1R II

- ◆ Effective pixels: 42.0 million BSI-CMOS
- ◆ CMOS: Full frame (35.9x24 mm)
- ◆ Zoom range: 35 mm eqv.
- ◆ Shutter range: 30-1/4000 sec.
- ◆ Built-in Wi-Fi and NFC
- ◆ LCD: 3.0" 1,228,000 dots
- ◆ Battery: Lithium-Ion NP-BX1
- ◆ Storage: SD/SDHC/SDXC/MS Pro Duo
- ◆ Size: 113x65x72mm, 507g

Sony Cyber-Shot DSC-RX100V

- ◆ Effective pixels: 20.0 Million 1" BSI-CMOS
- ◆ Built-in Wi-Fi and NFC
- ◆ Zoom range: 24-70 mm eqv
- ◆ Shutter range: 30-1/2000 sec
- ◆ Aperture range: F1.8-F2.8
- ◆ LCD: 3.0" 1,228,000 dots
- ◆ Battery: Lithium-Ion NP-BX1
- ◆ Storage: SD/SDHC/SDXC/MS Pro-Duo
- ◆ Size: 102 x 58 x 41 mm, 299g

Panasonic Lumix DMC-LX10

- ◆ Effective pixels: 20.0 Million 1" BSI-CMOS
- ◆ Built-in Wi-Fi
- ◆ Zoom range: 24-72 mm eqv
- ◆ Shutter range: 60-1/4000 sec
- ◆ Aperture range: F1.4-F2.8
- ◆ LCD: 3.0" 1,040,000 dots
- ◆ Battery: Lithium-Ion Rechargeable
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 106 x 60 x 42 mm, 310g

Panasonic Lumix DMC-ZS100

- ◆ Effective pixels: 20.0 Million 1" CMOS
- ◆ Built-in Wi-Fi
- ◆ Zoom range: 25-250 mm eqv.
- ◆ Shutter range: 60-1/2000 sec.
- ◆ Movie Clips: 3840 x 2160 30fps
- ◆ LCD: 3.0" 1,040,000 dts
- ◆ Battery: Lithium-Ion Rechargeable
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 111 x 65 x 44 mm, 312g

Casio Exilim EX-ZR5000

- ◆ Effective pixels: 12.0 Million BSI-CMOS
- ◆ Built-in Wi-Fi
- ◆ Zoom range: 19-95 mm eqv
- ◆ Shutter range: 4-1/4000 sec
- ◆ Movie Clips: 1920 x 1080 30fps
- ◆ LCD: 3.0" 921,000 dots
- ◆ Battery: Lithium-Ion NP-130A
- ◆ Storage: SD/SDHC/SDXC Card
- ◆ Size: 108 x 62 x 38 mm 249g

Casio FR110H

- ◆ Effective pixels: 1.9 Million BSI-CMOS
- ◆ Rugged action camera
- ◆ Zoom range: 20 mm eqv
- ◆ ISO 51200
- ◆ Movie Clips: 640 x 480 30fps
- ◆ LCD: 3.0" 921,600 dots
- ◆ Battery: Lithium-Ion Rechargeable
- ◆ Storage: micro SD/SDHC/SDXC Card
- ◆ Size: 60.9 x 154.8 x 38.7 mm 214g

Global Platform for Tech Traders

Harnessing the city's position as a leading electronics trading hub in Asia-Pacific, the HKTDC Hong Kong Electronics Fair (Spring Edition) offers international buyers direct access to the latest developments in everything from virtual reality to consumer electronics and smart device accessories. Around **2,900** exhibitors will take part in Asia's largest electronics fair, which will be hosted from **13-16 April 2017** at the Hong Kong Convention and Exhibition Centre.

New Tech Hall in the Limelight

Find the latest products and technologies from Virtual Reality, Connected Home, Robotics & Unmanned Tech to Wearable Electronics.

New Startup Zone: Connect with the Future Today

Don't miss the **Startup Zone (@Hall 3)** that highlights the brightest tech startups from around the globe, allowing investors, buyers, manufacturers and venture capitalists to explore innovative breakthroughs in smart tech devices and next-gen ICT solutions. Discover new ideas, hear inventive pitches, take part in forums and network with the world's most innovative startups as you leverage new ideas to stay one step ahead.
